Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Response to Arguments

Applicant's amendment filed on July 27, 2005 has been entered and made of record.

Applicant's arguments with regards to claims 1-3 have been considered, but are moot in view of the new grounds of rejection.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-3 are rejected under 35 U.S.C. 102(b) as being anticipated by Wirt et al. (U. S. Patent No. 4,858,003).

Regarding claim 1, Wirt discloses a film scanning device that includes:

a body having a front portion, a first end portion and a second portion (fig. 1)

said body provided with a first opening located at said first end portion of the body which is an inserting position for inserting a strip film, and provided with a second opening located at said second end portion of the body which is an exit for the strip film which was inserted into the first opening, said first and second openings being linearly aligned so as to provide a straight through path for the movement of the strip film (fig. 1, col. 4, lines 35-53); and

Art Unit: 2622

said body provided with a third opening located in said front portion of the body which is an inserting position for inserting and pulling out a slide mount in a direction perpendicular to the direction which the strip film is moved (fig. 1, col. 3 line 66 through col. 4 line 6); and

a photographic sensor that can take pictures of a strip film inserted through the first opening or a slide mount inserted through the third opening (fig. 2, co. 5, lines 13-19); and

a projecting light to project an image from a strip film or a slide mount (fig. 1, col. 3, lines 57-65).

Regarding claim 2, Wirt discloses the film scanning device as claimed in claim 1, and further including: a first guide which is combined with said body and located at the inserting position of the slide mount from the third opening; and a second guide which located at the inserting position of the strip film to set up slide mount between it and the first guide (fig. 1).

Regarding claim 3, Wirt discloses the film scanning device as claimed in claim 2, and further including: a carrying actuator which is used to move the strip film automatically; and wherein the first guide is located between the light path of an image from a strip film or a slide mount to the photographic sensor (figs. 1 and 2, col. 5 line 40 through col. 6 line 30).

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after

Art Unit: 2622

the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
